MARKET FEELS DROP IN COPPER.

Weakness Abroad Affects Sentiment Here.

SOME LINES HOLD FIRM, HOWEVER.

Sugar Refining and United States Steel Show Advencing Tendoncies Shifting of Speculative Attention From Railways.

NEW YORK, Nov. 28.—The really sewere decline in the price of copper in the London metal market constilled the dealings in securities at that point and notably, of course, in the Copper abares, and largely in consequence thereof London furnished a range of prices for American stocks, in which a number of declines extending to 1 per cent were aboun-

An Unfavorable Influence.

The local market opened unfavorably, influenced by this circumstance, which was indeed about the only new development which was presented for considera tion. As was to be expected, the worst instance was Amalgamuted Copper, which opened weak and scored a severe decline The average speculator in this stock is altogether at sea in regard to his position, as he is in regard to what may be the actual conditions prevailing in the Irade.

It is entirely safe to say that perhaps 90 per cent of the outside interest in Amalgamated stock since its introduction to the public was based on the imposing personnel of the directorate of the company. although Wall Street has found out many times before that personnel, in this respect, amounts to sound and little else.

London Sells Heavily.

London Selis Heavily.

London followed up the lead set in the lower prices for American stocks by selling about 25,000 shares of various issues in this market, an amount sufficient with other circumstances in view to carry some weakness on the general business situation. other circumstances in view to carry some effect in shaping sentiment. At the same time the market as a whole could not be described as being weak or inteed anything more than irregular.

thing more than irregular.

Aggressive stock attempts appeared in a number of directions, and in a general way a somewhat firmer tone developed with the course of the day, although trading throughout was characterized by no intile uncertainty. Both the money and the foreign exchange markets retained the tendencies they displayed on Wednesday, the first manuel being easy tained the ichacheres they displayed to Wednesday, the first mained being easy and firmer at the same time. The sug-gestion that the expert movement of gold might be resumed shortly did not appear to cut much figure in the day's specula-

The returns of railway traffic submitted summed up all the news there was bearing upon perticular stocks, apart, of course, from the violent break in copper In Lenden. Local nuthericles in the copper trade were quoted as making light of the break in the metal abroad, although it is not easy to ace how the New York market can ignore such a decline.

Amalgamated Copper dropped 5 point the break in the metal abroad, although it during the day to 75, and it closed practically at the bottom level. Apparent the stock had no friends. It was said

Shifting of Speculation.

The speculation showed some appearances of shitting for the time being out the professionals. Stop orders were of the railway list into other quarters of reached in large numbers with every dro and nided the movement materially. To part of the activity and the more pronotinced movements were not in the
former.

Pirm features of the railway list were

it would reach 75. There will be much part of the activity and the more pro-

the Reading shares, the Wabash stocks and in an uncertain sort of way, St. Paul and Union Facific. The Vanderbill stocks were comparatively neglected at a lower range of prices. Other strong features in that quarter, aside from those noted, were Louisville and Nashville, the Colorado Soushern shares, and Southern Railway.

The local fraction issues were more quiet than for several weeks, but continued steady. In the specialty quarter Consolidated Gas was weak, presumably because of disappointment that nothing more than the regular quarterly rate of dividend was declared. American Loco-motive declined sharply on unsubstantiated reports of the dissolution of the pool which had been active in the stock, and General Electric failed to hold a material early advance.

Steel and Sugar Strong.

Firm features in this quarter were Tennessee Coal and Iron and People's Gas. on the company was not heard again There were large dealings among the industrials, which were strong, with substantial advances showing in Sugar Refining and the United States Steel stocks. The advance in Sugar Refining was again apparently based on the notion that action favorable to the company in tariff on Cuban sugars might be taken at the approaching sersion of Congress.

Aside from the splendidly maintained

prosperous condition in the steel industry there was nothing to be cited in connection with the strength displayed by United

yesterday morning for a time. The pre-ferred advanced 2 points to 41% and closed with a good net gain, though not at the top price of the day. It was thought that the accident on the line might came a break in the stocks, and perhaps for this reason the insiders supported them well. There was talk of the prospect of largely increased earnings, with the extensions of the system. It was rumored yesterday that a satisfactory arrangement has been made with the Pennsylvania for the en-trance to Pittaburg.

Government Honds.

were declines of from a fraction to two

points. There was no appreach to demor-alization, however, and the street did not

infer that the break was likely to extend

much further.

Camervative critics of the market make the comment that it is doing remarkably well under the circumstances. They suggest that ordinarily such a slump as that in Amalgamated would almost bring on a panic. It is fairly apparent that the larger increase are superstimed the gen-

larger interests are supporting the gen

A Good Bank Statement Expected.

The experts look for a good lank stat

treaty at this time, with the outlook s

good for having their wishes gratified re-garding the tariff.

Detroit Southern Securities Listed. Detroit Southern common and preferred stocks were listed on the stock exchange yesterday. A "tip" was circuisted that they would be given an advance.

The Union Pacific Statement. It may be announced on good authority hat the Union Pacific statement for Or

tober will show an increase it net earn-ings of between \$250,000 and \$200,000. The statement is likely to be given our today. Chesapeake and Ohio.

The Soultern accurities generally were frong yesterday. Louisville and Nashville, and both the Southern Ballway stocks were advanced well in the morning, and Norfolk and Western, and Chesaposke and Ohio held their own. Southern Rail-way preferred is selling at the highest trice in its history, also Norfolk and Western common. Chesaposike and Ohio is in the same group and its business has increased in an entirely satisfactory manner, but the stock is 2 or 3 points below its level of last June. Conservative houses advise its purchase for investment.

Good Buying of the Conlers. The conlers again were features of the The pounding given Amalgamated Cop-per yesterday in the stock market and the very glocmy news expressed regarding the copper trade outlook at last caused a small recession in the general market, though during the entire moraing the railways and many of the industrials were strong and scenned to be little affected by these influences. In the last hour there were declines of from a fraction to two allway list under the lead of the Readings. The buying of these stocks is said to be of a better character, taken as a whole, than that in some of the other groups that have had sharp advances re-

The Railway Equipment Companies. A sharp decline occurred in Locomotive ommon yesterday morning, but before the close it had recovered, and its net movement for the day was a gain. The Car and Foundry and Pressed Steel Car securities were quiet. The street is inclined to onlimism regarding all these stocks, on the fine business situation, but favors the older stocks at the moment cause they seem to be less manipulated.
